PROFILE

My name is Garima Sharma and I am currently in my second year of pursuing a BTech in Computer Science and Engineering. I have always been a bright student in my academics and I am proud to be a member of the Entrepreneurship Cell at our college. I am always enthusiastic about learning new things and I believe in keeping myself up-to-date. My passion lies in coding and I enjoy exploring new concepts in this field.

Education

Currently pursuing Bachelors of Technology in Computer Science and Engineering (Semester 4th)

Duration	Institute	Course	Board	Percentage/Cgpa
2022-2026	DCRUST,Murthal, Haryana	Btech CSE	AICTE	8.56
2021-2022	RS Public School,Karnal, Haryana	12th	CBSE	91.6%
2019-2020	Dyal Singh Public School,Karnal, Haryana	10th	CBSE	94.6%

SKILLS

Knowledge of C Language
I possess a strong understanding of the C programming language, having worked with it extensively since my first year of college. Through my experience, I have gained a wealth of knowledge in the language's syntax, programming concepts, and best practices.

Basic Knowledge of java
I possess a good understanding of Java, including syntax and classes. Additionally, I have a solid comprehension of the fundamental principles of Java.

HTML
I possess a comprehensive understanding of HTML, including its syntax, structure, and functionality. With my expertise, I am proficient in utilizing HTML to create visually appealing and responsive web pages that meet industry standards.

CSS
I am highly skilled in CSS and can utilize it to create visually stunning webpages.

JavaScript
I possess a considerable understanding of JavaScript, which enables me to perform a multitude of tasks.

PROJECTS

Tic Tac Toe Game

The game has been created using the three major programming languages, namely HTML, CSS and JavaScript. This is a mobile-friendly webpage, which means the game can be played on both computers and smartphones with ease. Additionally, the sound effects of the game add an extra layer of attraction and make the game even more exciting.

Word Counter

This is a tool that can count the number of words in a line or paragraph that you input. It has been developed using Java programming language and is called a "word counter". This tool has been designed to make it easier for you to count words by utilizing the principles of Java programming.

Achievements

2nd Position in Academics

During my first year of college, I worked diligently in my branch to excel in academics. My hard work and dedication paid off as I was able to secure the second position, which is a testament to my commitment towards my studies.

3rd Position in Auction Frenzy

Last year, my team and I participated in the Auction Frenzy event held at Thomso in IIT Roorkee. It was a fantastic experience for us as we were the only all-female team in the event and secured third position.
